JOB APPLIED FOR POSITION

Software Team Leader

WORK EXPERIENCE

Years of general work experience:

11 years

October 2008 - Present

C# - ASP Developer & Team Leader

Teamnet Solutions International, part of Teamnet Group, www.teamnet.ro.

Developing applications and tools for geographic analysis

Projects

- SIM – Information System Management. It was made using ASP.NET 4, NHibernate, JQuery, MVC, SQL-Server 2012.
- RNI – Support for establishment of the Integrated National Registry of flora species, wild fauna and natural habitats of community interest from Romania, Beneficiary: National Environmental Protection Agency, dec 2009 – dec 2010. This project manage all those dates and creates reports for UE. It was made using ASP.NET 2.5, NHibernate, JQuery, SQL-Server 2008. This was the first project when I start to manage people and resources.
- eABR – Project for managing households, farms, peoples, animals, crops in a Agricultural register. In the end it creates reports for UE. It was made using ASP.NET 2.5, NHibernate, JQuery, SQL-Server 2008
- WIMS – Investment supporting the information system and database for water management", Beneficiary: National Administration "Apele Romane". Create and implement web applications at different levels (local, regional) used to improve the water management. It was made using Teamnet Framework.

December 2005 - October 2008

C# Developer

EBSOFT, Iasi, Romania

- ERP – In process of developing together with other 7 team members a financial management project, using .NET, C#, Crystal Reports, Microsoft SQL Server

Sept. 2004 - December 2005

C# , Web Developer

TGH SRL, Iasi, Romania

- Software Product Management - Project for managing the entire suite of software products developed within the company, managing the participants and their role during development, using .NET, C#, Crystal Reports, Excel, Microsoft SQL Server. (developed with another colleague)
- Clients and Claims - Data management for clients, ordered products and any feedback from clients related to the purchased items. (developed only by me and tested by another colleague)
- Together with a colleague I developed a tool (using C#, Microsoft SQL Server 2000 and Crystal

Reports) that was managing all the computers in a company. The tool uses a database made for another projects (a database with employees). The tool contains a tree for each computer component and when you populate a tree like that, the main nodes are showing component types with computers in their children nodes. For each tree the tool creates reports with Crystal Reports. I managed to enhance the application performance by filling in the trees using DataViews.

Sept. 2004 - December 2005 **Web Developer**

ACROSS, Iasi, Romania

- maintained the existing web page by adding new functionalities specific to a travel agency
- developed the user interface according to the technical specifications for new modules and implemented new services for site (created PHP pages and a SQL database instead of more then 300 html pages and implemented a search engine

Sept. 2004 - December 2005 **Visual Basic for Application Developer**

MAIBET SRL, Iasi, Romania

- developed a new product for maintaining a database with more than 400 companies

EDUCATION AND TRAINING

May 2014 **Professional Scrum Master**

Scrum.org

October 2013 **Microsoft Certified Professional**

Microsoft

- Programming in HTML5 with Javascript and CS3(70-480)

2009 - 2011 **Microsoft Certified Professional Developer**

Microsoft

- Design & Develop Web Apps Using MS .NET Framework 4 (70-519) passed in November 2011
- Accessing Data with MS .NET Framework 4 (70-516) passed in November 2011
- Web Apps Development with MS .NET Framework 4 (70-515) passed in September 2011
- Windows Communication Foundation with MS .Net Framework 4 (70-513) passed in August 2011

Client	The “Romanian Waters” National Administration <i>Str. Edgar Quinet nr. 6, Sector 1, Bucureşti, Romania</i>
Activities	Create and implement web GIS applications at different levels (local, regional) used to improve the water management. It was made using Teamnet and ESRI ArcGIS .NET Framework
Contact person	Marin Marin, +40 734 553 431
Name	eABR – Implementation of online services to citizens and internal flow automation work - e-Management Solution
Period	July 2010 – December 2011
Client	Braila Mayor Office <i>Piaţa Independenţei, nr. 1</i>
Activities	Project for managing households, farms, peoples, animals, crops in a Agricultural register. In the end it creates reports for UE. It was made using ASP.NET 2.5, NHibernate, JQuery, SQL-Server 2008
Name	RNI – Integrated National Registry
Period	December 2009 – December 2011
Client	National Environmental Protection Agency <i>Splaiul Independentei, nr.294, Corp B, Sector 6, Bucureşti, Romania</i>
Activities	Integrated National Registry of flora species, wild fauna and natural habitats of community interest from Romania, including a GIS component. This project manage all those dates and creates reports for UE. It was made using ASP.NET 2.5, NHibernate, JQuery, SQL-Server 2008. This was the first project when I start to manage people and resources
Contact person	Roxana Mihai +40 743 084 487
Name	SIM – Integrated Environmental System
Period	September 2010 - December 2014
Client	National Environmental Protection Agency <i>Splaiul Independentei, nr.294, Corp B, Sector 6, Bucureşti, Romania</i>
Activities	Information System Management. It was made using ASP.NET 4, NHibernate, JQuery,MVC, SQL-Server 2012, integrating the ATLAS GIS .NET Framework
Contact person	Silvia Ene, +40 743 093 302, +40 745 159 773

PERSONAL SKILLS

Mother tongue(s) Romanian

Other language(s)

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	C1	C1	C1	C1	C1

Levels: A1/2: Basic user - B1/2: Independent user - C1/2 Proficient user
Common European Framework of Reference for Languages

Communication and organizational skills

- good communication and interrelation skills, responsibility, creativity
- ability to learn and focus in any circumstances
- good system vision and communication skills
- exceptional attention to detail and ability to recognize and fix errors
- ability to work in a team

Computer skills

- object-oriented programming(intermediate level) in C++, Visual C++, Visual Basic, Java, based-on-rules programming (intermediate level) in LISP
- object-oriented programming(advanced level) in C#
- relationship database programming (advanced level) in Visual FoxPro, MySQL,
- relationship database administration (advanced level) MicrosoftSQLServer, Oracle
- web development (advanced level) in HTML, Macromedia, Adobe etc. and (intermediate level) using XML, XHTML,JQuery, Javascript, VBScripts, Php;
- GIS concepts and frameworks (Esri ArcGIS, OpenLayers 2, GeoExt, OGC services)
- Work with standard OGC services (WMS, WMS, WFS, WMTS, WPS)
- operating systems:: all Windows
- Microsoft Office - Word, Excel, PowerPoint
